

The House on Sport By Members of the London Stock Exchange Volume 25

Filesize: 2.33 MB

Reviews

A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest eBook i have read during my very own daily life and could be he best eBook for possibly.

(Mitchell Kuhn III)

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 48 pages. Original publisher: Aberdeen Proving Ground, MD : Army Research Laboratory, 2006 OCLC Number: (OCoLC)227891668 Subject: Video recording -- Measurement. Excerpt: . . . and placement tasks. This time, standard deviations were calculated with the frame-latency manipulation method and were absolute values of FRs (e. g. , 4 Hz). Grasp time and the number of grasp attempts were significantly greater at the 9-Hz mean FR and when the standard deviation of system responsiveness (SDSR) was 4 Hz. Overall, grasping performance was impaired the most when mean FRs were low and SDs were high. Based on these results, Watson et al. (1998) speculated that improving the mean FR above 17 Hz may not necessarily increase grasping performance; to test this, a second study was conducted with a set of higher FRs. FR SDs were based on percentages of FRs (e. g. , 5. 6 of 17 Hz). It was found that increasing FR from 17 to 25 Hz did not significantly improve grasping performance, as hypothesized. Improved placement performance occurred at higher mean FRs and lower standard deviations, as was also found in Experiment 1. Overall, these results suggest that there may be a grasping performance threshold at higher FRs (such as at 17 Hz) and that grasping performance may be compromised only at lower mean FRs (such as 9 and 13 Hz). Methods of calculating SDs in frame time have also been compared. In a third experiment, Watson et al. (1998) tested the hypothesis that SDSR control via absolute values was inferior to SDSR control via percentages of mean FR. The SDs were manipulated as absolute values of FRs (e. g. ,...
