Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from *Insect Life, Vol. 6: Devoted to the Economy and Life-Habits of Insects, Especially in Their Relations to Agriculture Forest and Shade Tree Enemies in West Virginia*. - Bulletins 31 and 32 of the West Virginia Agricultural Experiment Station, by Mr. A.D, Hopkins, published in April and May, 1893, respectively, contain much matter of interest to the student of forest insects. Bulletin 31 is a catalogue of West Virginia Scolytidae? and their enemies, but it is also something more than a catalogue. It gives rearing records and brief tabular accounts of the habits of 80 species of Scolytidae and of 88 species of the natural enemies of these destructive beetles. In considering parasites Mr. Hopkins has carefully distinguished between those found simply associated with the supposed host; those which he considers to be primary, and those which he considers to be secondary. Although the records would have been of more value had the reasons for these conclusions been given, the list nevertheless marks an advance in this direction. It is interesting to note that Mr, Hopkins has reared 8 distinct parasites of *Scolytus rugulosus*, and a further remarkable observation is recorded in the fact that a Chalcidid of the subfamily Pteromalintae was reared from the adult of *Pityophthorus minutissimus*, an observation which is without parallel in the whole family Chalcididae. Bulletin 32, which comprises a catalogue of the West Virginia forest and shade-tree insects, is naturally more extensive, and covers some 75 pages, giving rearing records of no less than 404 species. The bulletins are well printed upon good quality of paper, but are somewhat marred by the results of inexpert proof-reading. Orange Insects in Louisiana....
