Royal College of General Practitioners. Paperback. Book Condition: new. BRAND NEW, Delivering Quality Diabetes Care in General Practice, Roger Gadsby, Description Quality indicators and the quality payments based on them are here to stay. The delivery of quality diabetes care, as outlined in the quality framework of the new GP contract, is the main focus of attention of this book. Unlike the majority of diabetes textbooks available today, this book is specifically targeted at the GP, practice nurse and community diabetes team. Following on from the Diabetes National Service Framework (NSF), the quality framework of the new GP contract, which was accepted by the profession in the summer of 2003, sets out the delivery of quality diabetes care. The quality payment framework included in the new GP contract gives both detailed process and quality targets, which will inevitably become the main drivers for diabetes care delivery in general practice. The chapters of this book cover in detail each of the 18 quality indicators. The background and evidence base from trials and guidelines is given, along with underlying issues and pragmatic guidance as to how to deliver care to fulfil the targets. References are included so that original sources can be checked out by those who want to follow the arguments in detail. This book enables everyone working in community diabetes care to put the quality framework in context and gives readers the information and advice to enable them to deliver quality diabetes care.
