Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Public domain report on speech control of military robots analyzed and enhanced by PageKicker Robot Jellicoe. Twenty-one enlisted Soldiers supported this user-based evaluation of robot controller options: speech control versus a manual wrist-worn mouse, crossed with two types of visual display options-grid versus object segmentation (OS). Performance on the maneuver course showed slower times for the speech controller, across both levels of workload. The slower times for the speech control can be attributed to the percent of times that the speech control had to be repeated. In addition, the two visual display options were evaluated using a search lane that was cluttered with objects. In this event, the grid display was significantly faster. The OS display was much slower when used with the speech controller. Driving errors were higher in the OS-speech controller condition. Soldier feedback with regard to user experience showed positive regard for the concept of speech control, particularly for its contribution to hands-free operation and maintenance of situation awareness. Improvements for speech control were suggested with regard to robot responsiveness, robot maneuvering, and staying within...
