

Sustainability and Biofuels

By Fabian Junge

GRIN Verlag. Paperback. Book Condition: New. Paperback. 32 pages. Dimensions: 8.3in. x 5.8in. x 0.1in. Seminar paper from the year 2012 in the subject Law - Public Law Miscellaneous, grade: 1, 3, University of Groningen, language: English, abstract: Climate change and climate protection can be considered as the most controversial and most discussed topics in the 21st century. Especially, since the Intergovernmental Panel on Climate Change released its 4th Assessment Report on Climate Change in 2007 stating that climate change is indeed mainly caused by human activities. Hence, policy-makers all over the world are taking responsibility for climate protection in order to compensate for society's faults. 1 The European Union sees itself as one of the driving forces behind fighting climate change and is keen to create and encourage policies or developments that might support their efforts. As proposed in the Lisbon and Gothenburg in 2000 and 2001, the European Union wants to be the most competitive and dynamic knowledge-based economy with a sustainable growth, more social cohesion as well as respect for the environment. One of the opportunities to achieve this objective is bioenergy, or in particular biofuels, which may allow for the reduction of greenhouse gas emissions, more energy...

Reviews

This publication may be really worth a go through, and a lot better than other. It really is written in simple terms and never difficult to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Natalie Abbott**

This book will not be simple to get going on reading but extremely exciting to read through. Yes, it can be playful, still an interesting and amazing literature. I am very easily could possibly get a delight of reading a written book.
